# Personal Laptop or Phone Internet Access

UCB Guest wireless allows campus guests quick and easy access to the Internet. Guests simply choose UCB Guest Wireless SSID, open a web browser, agree to Terms and Conditions of Use, and are immediately able to browse the Internet. After 24 hours, guests are required to once again accept Terms and Conditions of Use.

UCB Guest wireless only provides general Internet use. Guests cannot access CU Boulder resources that require on-campus connections, such as Library resources and other protected servers and services that are provided strictly for CU Boulder affiliated students, faculty and staff members.

Note: Whenever sensitive data is transmitted on wireless, a VPN should be used for secure data transmission.

## To connect:

1. Select **UCB Guest** as your wireless network.
2. Open a web browser and go to [www.colorado.edu](http://www.colorado.edu). You will be automatically redirected to a registration page.

## Connect to UCB Guest Wireless CU-Boulder campus guests

UCB Guest Wireless allows campus guests quick access to the Internet (excluding CU-Boulder resources, such as Library resources and protected servers).

To connect to UCB Guest:

1. Review the **Guest Wireless Policy** below.
2. Click the **Agree** button.

### **Guest Wireless Policy**

*CU-Boulder's networking resources and facilities support the academic activities that are consistent with the mission and goals of the University. By using the guest wireless network you are agreeing to abide by campus Computing and Network Resources Policy <http://www.colorado.edu/policies/cnr/>.*

### **Accessing CU-Boulder's Guest Wireless Network From Your Wireless Device**

*CU-Boulder provides wireless access for guests with laptops, netbooks or any device capable of receiving wireless signals. You will be able to access the Internet from your wireless device when within range of an access point.*

### **Terms and Conditions of Use**

*Guests will need a notebook/laptop computer or other device equipped with a wireless card that supports the WiFi standard. The University of Colorado Boulder assumes no responsibility for the safety of equipment.*

*The Office of Information Technology is responsible for administering and overseeing the campus computer network; however, the University is not responsible for loss of data or hardware failures that may occur during this process.*

*Guests are expected to use the wireless access in a legal and responsible manner. By using this wireless access network, the user acknowledges that he/she is subject to, and agrees to abide by all laws, and all state and federal rules and regulations applicable to Internet use. Misuse of the guest wireless network may result in the loss of your internet connection privileges, as well as, possible disciplinary and /or legal action.*

### **Security Considerations**

*Wireless access is by nature an insecure medium. As with most guest wireless networks, any information being*

Agree

Disagree

3. Review the **Guest Wireless Policy**.
4. Click on the **Agree** button.
5. You are now free to use UCB Guest Wireless for basic Internet activity for 24 hours.
6. Re-registration is required every 24 hours.

## Guest Wireless Ports

All common web and VPN traffic is available through UCB Guest Wireless; however, some applications will not be able to connect due to the needed port not being open on UCB Guest Wireless network. The following ports are available:

### Web

80/tcp, 443/tcp

### Email

Secure SMTP – 587/tcp

Secure IMAP – 993/tcp

Secure POP – 995/tcp

SSH – 22/tcp

FTP – 20/tcp, 21/tcp

### VPN

(PPTP) – 1723/tcp

(IKE) – 500/tcp & udp

(IPSEC) – 4500/tcp & udp, 10000/tcp & udp

(GRE) – protocol 47

(ESP) - protocol 50

(AH) - protocol 51

## Eduroam

The **eduroam** service is an international secure federated access service, allowing for members of participating institutions to access a secure wireless network when on the CU Boulder campus.

Campus visitors from institutions participating in eduroam can simply select **eduroam** from their operating system Wi-Fi options and connect to eduroam using their institution's credentials. If you experience any issues with while visiting CU Boulder, please contact your home institution's service desk.

Campus visitors not from a participating institution should use the [UCB Guest wireless service](#).
